## TRAFFIC ADVISORY

### Milling and Paving to Close Lanes on I-840

**Nashville, Tenn.** – The Tennessee Department of Transportation (TDOT) will conduct lane closures on Interstate 840 in Williamson County.

Beginning **Tuesday, March 10, until at least Sunday, March 22**, crews with Volunteer Paving will begin intermittent closures of lanes and ramps on I-840 from near Lewisburg Pike (US 431) to the bridge over Harpeth School Road in Thompson's Station (red line on map below). Nighttime closures will be conducted on weekdays from 8 p.m. to 5 a.m. to mill the roadway, while daytime closures from as early as 7 a.m. to as late as 6 p.m. will be conducted on weekends and Monday, March 16 (until 3 p.m.) for paving. Paving cannot be completed at night due to low temperatures during this time of year. For the materials to properly cure and achieve long-term durability, consistently warmer outside temperatures are required.

Follow [@ErinTDOT](#) and [@myTDOT](#) on X for any updates on timing.

These closures are necessary for crews to begin milling and making spot repairs on I-840 to prepare for a resurfacing project. The full resurfacing on I-840 from just west of State Route 6 (US 31/Columbia Pike) to near Arno Road is in [TDOT's 3-Year Pavement Plan](#) for this year (blue line on map). Full project construction is tentatively scheduled to begin this July.

All work is weather-dependent. As always, drivers are reminded to allow additional time, slow down, and move over when traveling through a work zone. The Move Over Law was passed in 2006. The penalty for violating the law in Tennessee includes the possibility of up to 30 days in jail and a maximum fine of \$500.

Motorists can report potholes to TDOT by calling the TDOTFIX Hotline at 833-TDOTFIX or using this online form: [TDOT Maintenance Request](#). The TDOT SmartWay Map (<https://smartway.tn.gov>) provides the latest traffic updates on construction activity. Travelers can also call 511 for travel information.
